7 (b) continued. Amended claims 43-49 would be rejected on the same grounds of rejection as presented in the Office action of 9/27/05. New claim 53 would be rejected under 35 U.S.C. 103 as being obvious over Buelna et al. (U.S. Pat. No. 5,700,273), where it would have obvious to one having ordinary skill in the art at the time the invention was made to move a suture along an outer surface of the hollow needle, in order for a surgeon to grasp a suture for its removal or for tying. New claim 54 would be rejected under 35 U.S.C. 102 as also being anticipated by Buelna et al., where the hollow needle includes a cutting edge.
